OVERVIEW

The Federal Transit Administration (FTA) is conducting a Triennial Review of the Norwalk Transit District. The review determines whether a recipient is administering its FTA-funded programs in accordance with 49 U.S.C. Chapter 53, Federal transit law provisions. It assesses the recipient's management practices and program implementation to ensure that the programs are administered in accordance with FTA requirements and are meeting program objectives.

The virtual site visit portion of the review begins with an entrance conference, at which the purpose of a Triennial Review and the review process are discussed. The reviewer will conduct additional interviews and review documentation to evidence the Norwalk Transit District's compliance with FTA requirements. The recipient will be contacted to schedule the site visit dates. Gwen Larson of Qi Tech, LLC will assist FTA staff in conducting the review.

Pre-site Review

This Recipient Information Request (RIR) contains a preliminary list of items and questions that the recipient will be required to submit to the reviewer. The information provided will assist the reviewer in answering the questions in the related section(s) of the FY2022 Contractors' Manual. Each section of the guide addresses a specific review area. This document also follows the same methodology. When submitting a single document to satisfy multiple requests, please note in the "*Comments for Recipient*" column the area(s) of the document (i.e., section or page number, etc.) which request the document is addressing.

This document is made up of three sections.

- Section A – *Recipient Profile*. All recipients that provide service complete Table I. States complete Table II. Recipients with subrecipients complete Table III. All recipients complete Tables IV and V.

- Section B – *Recipient Information Request.* Please assemble and organize the requested documents preferably in PDF, MS Word, or MS Excel format. Electronic versions of the documents are required. For consistency, please use the below example as a guide for naming/identifying the documents.

Example: Folder/File Naming Convention

Review Area/ Document	Folder/File Name
2. Financial Management and Capacity	2_Financial Management and Capacity
a. Financial statements or comprehensive annual financial reports for the past three years	2a1_FY23 FinStmts.doc
	2a2_FY23 FinStmts.doc
	2a3_FY23 FinStmts.doc
	2a4_FY23 CAFR.doc
b. Local Match – Amounts and Sources	2b1_StateMatch.doc
	2b2_CtyMatch.doc
c. Financial policies and procedures	2c1_FinPolGrt.doc
	2c2_FinProcCsh.doc

- Section C – *Virtual Site Visit Process*. A virtual site visit process is provided in this document. The areas to be discussed during the virtual site visit will be determined after FTA and the reviewer have reviewed the documents and answers provided to this and any follow-up items requested.

This document and corresponding requested recipient documents are intended to inform the reviewer as much as possible in preparation for the site visit. A more complete response to this RIR can result in a smoother review where minor issues can be addressed or prepared for well in advance of the site visit.

In preparation for the site visit, reviewers will work with the recipient to obtain additional information and clarifly responses to this RIR so as to determine the recipient's compliance with Federal requirements. As a result, **the recipient will receive follow-up requests for information**, based upon the review of documents submitted, research conducted, and discussions between the regional office and reviewer.

Agenda Package

Prior to the site visit, the reviewer will provide an Agenda Package. The Agenda Package will address:

- Areas of review
- Questions for discussion
- Follow-up items related to the review area
- Electronic clearinghouse (ECHO) records for review
- Maintenance records for review (facilities, rolling stock, and equipment)
- Procurement files for review
- Facilities to be visited
- Contractors, lessees, and/or subrecipients to be visited (and related oversight files)
- Final site visit schedule and logistics

So that the time spent together can be as productive as possible, please have representatives available who are familiar with the listed topics, as well as the pertinent documentation, the sample documents gathered and assembled for the review, **and subreciepients/contractors notified and available for discussions.**

If there are any questions about the review process, any documents or items identified for additional disscusion, or the documentation required, please contact Mr. Syed T. Ahmed, General Engineer, at 617-494-3254 or syed.ahmed@dot.gov; or your reviewer, Gwen Larson at 920-746-4595 or gwen_larson@qitechllc.com. We look forward to a meaningful and successful review.

12. AMERICANS WITH DISABILITIES ACT (ADA) - GENERAL

BASIC REQUIREMENT: Titles II and III of the Americans with Disabilities Act of 1990 provide that no entity shall discriminate against an individual with a disability in connection with the provision of transportation service. Note that it is possible for paratransit guides and information to point to general ADA deficiencies covered in the previous section. For example, while the paratransit guide may be the only place that a requirement for boarding direction or service animal harnesses is found, that does not make it a paratransit-specific deficiency. Use the deficiency codes in the ADA - General section for these types of deficiencies, if found. The two ADA sections are designed to work together.

Questions

1. *Please describe the system your agency uses to log ADA complementary paratransit service operations data (i.e., Paper, Microsoft Excel, other commercial software, etc.).*

   NTD Currently uses Routematch software to log all ADA complementary paratransit service operations data. Routematch is a single source software, the system is used for scheduling, dispatching, IVR trip and booking notifications. Routematch is used for our monthly ADA reporting as well as a paratransit oversite tool.

2. *Does your agency monitor its ADA complementary paratransit service capacity?*

   NTD does monitor its ADA complimentary paratransit service capacity. With the Routematch software we are able to monitor late trips, missed trips, excessive trip lengths, on time performance, and trips denials. In addition, NTD does monitor the telephone performance for ADA paratransit service as well as agent call times and customer wait times.

3. *If the answer to question 2 is "no", please explain why:*
